Gen. Billy Rider, with the cabalistic shibboleth. "Shin fane! Shin fane!" trembling on his lips, darted in and out of the building rallying his Milesian cohorts from the Levee to action and stationing them at strategic points around the building so that at a given signal they might charge the massed Filleyites and rout them from the field.

Snake Kenney, the dive-keeper, with Johnnie Dean, Jimmie Shields and other "Indians" stood on the outskirts of the crowd, wearing upon the lapels of their frazzled coats the saffron badge of authority labeled "Assistant Sergeant-at-Arms." "Those are the toughs Kerens has hired to come here and intimidate Republicans," shouted the busy and excited Wurtzburger. Attorney John A. Gernez wore one of the same kind of badges. He said it was sent to him this morning through the mails. He didn't know who had sent it or what was expected of him.

"I pinned it on," Gernez explained to a Post-Dispatch reporter, "as soon as I took it from the envelope and came down here immediately because I am a Republican and am always willing to serve my party." Nearly everybody else in the throng wore a white slik badge, with the simple inscription: "Delegate, Mass-Meeting Courthouse. May 9, '96."

The Duke's "bluff" at soldiering occurred on Feb. 7, 1890. He had attained his majority four days previously, presented himself at a recruiting office and asked to be enlisted in the French army. The matter was referred to the Minister of War, who ordered the Duke to be arrested under the law of 1886, which prohibited the entry into France of pretenders to the throne. Later the Duke was sentenced to two years' imprisonment, but was pardoned when he had been laughed at from one end of France to the other.

About a year ago the Duke is said to have engaged in a fight at a fair at Seville, Spain, about a woman, and was nearly killed by stab wound. Another version of the affair had it that he fell from his horse.

Reed will, under no circumstances, accept the second place on the ticket.

Moreover, it is said by one of his confidential friends, that he would look upon the proposal of his name in the National Convention for the Vice-Presidency as an act of impudence, and that he would resent it. He is said to feel that there is a desire in the West to couple his namewith that of Maj. McKiniey, with the Major on top. This, desire, he knows, is a genuine wish to do him honor, but he does not appreciate the sentiment, and will be mortally offended if any of his friends give confitenance to the idea.

Mr. Reed's friends are repeating the statements, which undoubtedly come from him, that if he be not nominated for first place at St. Louis he will never be a candidate for any position in the gift of the people. It is reiterated that he will retire from political life sitogether. He proposes to make a square fight for the nomination, and when beaten to finish his term as Speaker, and then begin the practice of law in New York.

ence settled the woman question, delegates generally have been tardy.

G. Louther of the Southwest Kansas Conference, when the roil of conferences was called, introduced a resolution denouncing the use of tobacco in a preamble, and then recommended the members to absolute abstinence and recommended that all Sunday-School Superintendents and Epworth League Presidents be forbidden the use of tobacco. It was referred to the Committee on the State of the Church.

A resolution was introduced which created a deal of laughter. It said that Bishop Hurst, in his speech of last night, said that the first dollar given the American University was by a colored man, and therefore the resolution provides that a colored man should always be represented on the board.

A resolution was introduced by Merrit Hurlburt of the Wilmington Conference, recommending that the Senate and the House of Representatives so amend the constitution that it might recognize the Deity, and in the preamble insert the words "Trusting in God." It was placed upon its passage, but finally referred to the Committee on State of the Church.

A resolution in favor of taking better care of superannuated preachers was referred to the proper committee,

Secretary Monroe read a communication from the Secretary of the M. E. Conference South, which met in May, 1894. It spoke of the matter of federation of the two bodies and the feeling which existed. When in the resolutions and preambles which followed it said that the conference regarded the growing desire for the confederation of evangelical churches of Christendom, it reviewed the great advantages of concerted action of the churches. It therefore recommended that a conference be held of the church and missions of Britain and Ireland, of the United States, of Australia and its branches and of Canada and its missions. The resolutions asked if such a conference was possible, and if so that a committee be appointed by all the various conferences, to consist of three bishops, three ministers and three laymen. It announced the committee already appointed by the M. E. Church South.

The matter was taken up by a resolution from one of the members, but it was decided that no action should be the conference until official noti-

The matter was taken up by a resolution from one of the members, but it was decided that no action should be taken by the conference, until official notification was served. The movement is important, as it may result in the consolidation of two of the great Methodist bodies of the country.

Dr. Broadbeck asked leave on behalf of the Committee on Missions to submit his report out of its order. The request was ranted and the report was read. It related to the reception of pastors from other denominations into the Methodist Church. While the resolution was general, it was explained that it referred to a special case in Germany where the German Wesleyans desired to incorporate with the Methodist Episcopai Church.

There were differences of opinion as to the financial arrantement. The Wesleyans had property worth \$200,000, which would be brought into the Methodist Church. They would sacrifice their life-long connection with the English Wesleyan Society, which they regarded as quite a sacrifice. The speaker therefore asked that the conference take such action as would open the doors of the Methodist Church to the Wesleyan Freedorts, and if so, the union would be consummated next year.

The resolution was unanimously adopted by a rising vote. A cablegram was sent to the Wesleyan Synod, now in session, informing it of the result of the conference's action.

Senator Harlan, under the order of miscellaneous business, introduced the following resolution:

Resolved, That the second restrictive rule be so changed as to admit of equal representation by the ministry and laity in the general conference.

The resolution was signed by James Harlan, Chris Howe and J. P. Leter. It looked as if the old fight would be opened and the lines more closely drawn than they have been heretofora.

The resolution of ex-Senator Harlan was referred to the Committee on Lay Representatives.

Dr. Stevenson of Kentucky introduced a resolution of sympathy for Cuba which was adopted.

The conference before adjourning passed a resolution condemning a recent enactment of the Florida Legislature whereby it was made illegal in that State for colored children and white children to receive instructions in the same school.

The convention then adjourned for the week.

The remaining sections provide penalties for violation of the ordinance, and for

Assessor Grund said: "We cannot tell just what the difference will be because we shall have to go over the whole business item by item to find out. We are exceedingly busy at this time of the year, so it will be a few days before we are ready to tell how matters will stand. I don't think such a general reduction should be made, as it will not leave enough to pay for the actual running of the works."

Comptroller Sturgeon said: "We should not make any reductions until we get pure filtered water all over the city. If any reduction is made let it be made in favor of the manufacturing interests upon which the stability of the city so largely depends. But, first of all, let us have the water properly filtered so that the health of the city will be assured beyond doubt. We want a filter plant, and the only way we can pay for it is out of the revenue. The tax on each individual is not high, considering the vast benefit and comfort they derive."

SHE PLEADS INSANITY.

Defense of Mrs. Condon to Her Husband's Suit for Divorca.

The divorce case of Edward F. Cond the Market street stove-dealer, against Mary E. Condon, is on trial in Judge Klein's court Baturday. Desertion is the sole ground alleged in the application for divorce, the desertion having occurred on Sept. 7, 1837.

The defense is being made by Attorney E. A. B. Garesche for Mrs. Condon, that she was insane at the time she deserted her husband and hence was not responsible for her act. Mr. Condon on cross-examination admitted Saturday morning that he had been compelled to place his wife in an asylum shortly before the separation.

Depositions were submitted to the court intended to prove that Mr. Condop had mistreated his wife. The couple were married Feb. 21, 1831. After the alleged desertion Mrs. Condon instituted habeas corpus proceedings against her husband to secure possession of the elder of their two children. The application was subsequently dismissed.

Big Rupture at L'Ouverture, the Swell Colored School, Which Bess Filley Will Be Asked to Rectify.

Janitor Philip Turner of L'Ouverture School became convinced that he was jan-itor of a flat a few weeks ago. Governing his acts accordingly he was relieved of his position by the School Board Building Com-mittee Friday night and his \$117 a month

mittee Friday night and his \$117 a month salary went with it.

That is the way Principel O. M. Wood of the school explains Turner's discharge. Turner has another story, but it comes later and isn't half as interesting as the one told by Mr. Wood.

What Principal Wood chiefly objected to in Turner's conduct was his treatment of the director of the kindergarten and one of the instructors one Saturday not long ago.

"Twe been a Republican all my life and went through three battles in the civil war." Turner declared Saturday.

"I was discharged to make room for somebody else. A committee of the A. P. A. came and told me some time ago that I was going to lose my job. But I intend to see about it. All I ask now is that the Republican party give me another job. Tim going out to 2700 Chestnut street and ask Mr. Filley to get it for me." I don't deny that I locked those ladies in. It was a Saturday, and no school day, and I wanted to go down town at 4 o'clock. I told them I'd have to lock up, and they said all right. I put a big box under the window to get down by; and they could have stepped out easy enough."

Turner had been janitor of the school for three years. His successor, appointed Friday night, 45 John McNeil.

Hermann fiatly denied the charges to a Post-Dispatch reporter.

"I kept company with my late wife for two years before I married her." he said.

"She was then known as the widow Berger and was a midwife. During all that time I never heard her say that she had any except a little girl she had adopted.

"We were twice engaged to be married. The first time I told her I was not ready to marry. The second time the wedding was postponed oh account of her ill health. April 9 she sent for me and I went down to her house at Twelfth and Shenandoah streefs, and found her very ill, but rational. She told me she was going to die and that she wanted me to marry her so she would have some one to take care of her property when she was gone.

"I consented. She wasn't able to go down to the Court House, so I got my father to sign the application for, a license in her stead. I told the license clerk how it was and he said it was all right.

everything arranged to go to Germany for the summer and he still hopes to get away at the appointed time.

But it is not thought he will leave until a triffing matter of a duel with Manager Albert B. Vorschimer of the Germania '1-seater is disposed of.

It all came about through the fusion of Tennessee whisky and bock beer. In addition to his possible duel with Prof. Ernst, Mr. Vorschimer is nursing a discoloration of the cutcle adjacent to his right eye, which has provoked among his friends the frequent repetition of the question: "Vas ist los mit Vorschimer's augen?"

When Herr F. Hitzigrath, the German actor, had his bith birthday he invited some of his friends to join him in a little festival at the Merchants' cafe, on Washington avenue. So after the performance at the Germania he, Manager Vorschimer, Otto Stoeckel, the assistant manager; Ernst Altenbrendt and Gustave Lippschuetz repaired to the place. They sat at a table in the rear of the barroom. In a little room hearby sat Prof. Ernst with several acquaintances. They were opening "smail bots," while Actor Hitzigrath celebrated his anniversary by purchasing large cold "steins." Mr. Vorschimer admits that his crowd made a run on the brewery and when a shortage in the beer supply was evident they turned to good old Tennessee corn fulce.

The party was hilarious by 1 o'clock a. m. and at 2 o'clock it was worse. Mr. Vorschimer says he remembers making several German jokes at Prof. Ernst's expense. He was careful that these pungent points of wit should reach the musician's ears.

Ernst demanded an apology. Words followed, faster and louder, until Proprietor Koerner thought the other patrons of his place were being inconvenienced and told the gentlemen that they would have to stop the noise. One of the birthday party and

The ordinance in question in its first or enacting section says:

Bection I. Aracle two, chapter fifteen, of ordinance number seventeen thousand one hundred and eighty-eight, entitled "An ordinance in revision of the ordinances of the City of St. Louis, and to establish new ordinance provisions for the government of said city," approved April seventh, eighteen hundred and innety-three, relabing to electric wires, tubes and cables, is hereby amended by striking out section six hundred and four thereof, and inserting in lieu thereof a new section, to be known as section six hundred and four, and to be as follows: Section six hundred and four.

Then along toward the end of the session up bobs the conduit bill. The last amendment to Sec. 604 does not, of course, appear in the printed volume of the revised ordinances, and had been entirely forgotten by the members who passed it. It was as if it had not been.

The conduit bill is drawn up to read so as to amend the same section already amended by the ordinance of July 31. In other words, the conduit bill amends a section that does not really exist.

In almost the very words of the previous ordinance it goes on to amend Section 604 of article 2, chapted 15 of ordinance 17,188.

Sanitarian Francis and Plumber Kalb fell Lock Horns."

Chief Sanitary Officer Chas. W. Francis and Theodore D. Kalbfell of the Plumbing and Theodore D. Kalbfell of the Plumbing Inspection Department have a very poor opinion of each other's executive ability. Mr. Kalbfell is trying to tell Mr. Francis how to run the Sanitary Department and Mr. Francis is trying to instruct Mr. Kalbfell as to his duties in the matter of conducting the Plumbing Inspection. The whole trouble is over some new plumbing in an old house at Sill Lucas avenue.

The plumbing does not suit the tenant nor Mr. Kalbfell, but does suit the plumber and Mr. Francis, and there lies the issue in the case.

As nearly as could be learned from a limited study of the situation the Sanitary Department has power to inspect houses and see whether the plumbing is right from a sanitary standpoint. The plumbing office inspects the plumbing to see if it is right from the standpoint of the plumbing ordinances.

In the house in question, Mr. Kalbfell says Mr. Francis has failed to do his duty and so reported to the Board of Public Improvements. Mr. Francis has also written to the board saying that Mr. Kalbfell has not done his duty and is doing the Sanitary office a rank injustice by his strictures. The muss is thekening. Which Cures Every Form of Piles Without Pain or Inconvenience.

An ordinary case of piles is one of the commonest afflictions of humanity. While they are extremely annoying, yet men and women will endure them for months and years, off and on, because they are not immediately fatal, and as long as they can get around and perform the daily duties of life they suffer on in the hope that in some way or other the trouble will pass away of its own accord, without any to their treatment than a little salve or ointment occasionally. Now in the very nature of the disease this will never happen. It is absolutely certain to grow worse, passing away for a time and returning, until before you are aware of it, an ulcer has formed and the beginning of the much direaded fistula has been made and then, what was at first a simple case of common, everyday piles becomes an even chance between life and death. Is there such a party as a sanitary inspector among the dead-heads who attempt to govern this city? If so, can't you shake up his dry bones? It seems the American people are so much married to the mighty dollar that they put up with any kind of filth, rather than elect a decent and intelligent city government.

The condition of the alleys is a standing disgrace to a community who call themselves civilized. Let me make a suggestion for the benefit of St. Louis: Send some of your city officials to Glasgow, Scotland, and if they have ordinary brains they can get posted on how to run the municipal machinery, as it is done in the best governed and most efficient sanitary system to the world. No boodle there, Aldermen and all city efficials respected by all, but that style of government is too good to suit this city; only loafers and such like can be elected here.

LELL-TAP FOR THE BIG RACE

Will Occur To-Day at the Fair Grounds.

PERFECT WEATHER ASSURED.

An Immense Crowd Will Be Out to See the Game Animals Struggle for Victory.

No finer day ever greeted the crowds that have assembled from year to year to welcome the advent of the spring racing eason than this Saturday, which marks the pening day of the '96 meeting. Except that the temperature threatens to become slightly overdone by the time the bell taps for the temperature threatens to become slightly overdone by the time the bell taps for the Inaugural, no better weather could be asked. Secretary Aull expects to see a crowd of 20,000 on the grounds by the time the big race is run, and the indications are that this estimate will be exceeded.

Everything is in tip-top shape for the opening. Flags and streamers decorate the grand stand and club house. The management has spared no pains and expense to give the best meeting in every respect ever held in the West. The Fair Association is in reality the only organization in the country that has always been run solely in the interest of the breeder and the public, and it deserves the heartlest support. Last year the Association made a little money. Since it has been in existence the Association has never declared a dividend, yet when President Massitt informed the directors that such a thing was arlast possible they unanimously authorized him to spend the money in securing the National Derby and several other big races that were released by the closing down of Washington Park. It cost \$20,000 to secure the Derby alone. Thus the entire profits for a year were spent to improve the grounds and the character of the racing. The horsemen have shown their appreciation by specking to St. Louis in greater numbers than ever before, and it remains to be seen whether the public will do its share toward supporting high-class racing.

class racing.

It now looks like seven horses will go to the post in the Inaugural, although at least two of them are doubtful. Buck Massie, Magnet, Assignee, Urania and Linda are certain to start. One of Barney Schreiber's entry, Schiller, and Don Carillo, will carry the St. Louis turfman's colors, but which he will select will not be known until the time comes for scratching. Green B. Morris intends to start Sir Play, but may conclude to scratch at the last moment. It is practically certain that neither Forget, Henry Young, Laureate, Libertine or Lady Inez will go to the starter. None are quite fit for such a race as this promises to be. If only the first five named start it will insure perhaps the best race ever run on the track. The track has been put in splendid condition by Supt. Christy and will be very fast, but experts pronounce it a trific deep near the inside rail. It is not unlikely that the track record will be shattered, but conservative horsemen think that 1:41 will take the money.

THAT DIDDLEBOCK AFFAIR. No Action Will Be Taken Until Sun

day—Base Ball News.

Matters at the base ball park are in statu quo. Manager Diddlebock is still under suspension, pending investigation of his movements on that fatal Thursday night when he had his face smasshed to a jelly. Arlie Latham is in charge of the team. Mr. Von der Ahe put a detective on his manager's trail yesterday.

The sletth was instructed to investigate Diddlebock's actions on Thursday night. If he has discovered anything new he has not yet reported to the magnate.

Mr. Von der Ahe said he would not take any action in the case until Sunday afternoon, when the Board of Directors meet.

All sorts of stories relative to the assult on Diddlebock are flying around toortsman's Park.

Diddlebock, when informed of the various tales in circulation about him, denied them all and reiterated the story he told yesterday, stoutly averring that it was true in every particular.
Diddlebock was surprised when told that he was suspended. He says that Von der Ahe treated him very considerately yesterday and said nothing to him about suspension. He told him to go home, as he was in a dangerous state. He also told bim to come up this morning and talk the matter over.

Latham is running the team, and it looks as if there will some changes made in the personnel of the team.

It would not be surprising if Niland succeeded Monte Cross at shortstop to-day. Latham has no use for Cross, and will do his best to get away with him.

Meyers' game is so strong that not even Latham's nerve is great enough to put him on the bench.

They have also got the "hooks" out for that great outfielder. Cooley. Notwithstanding the fact that Dick has played a great game in the field—he has not made an error this season—he must go, because the Cincinnati castoff doesn't like him.

The team is in a bad way. The players have no use for Latham, and won't do good work for him.

Cross has all their sympathy. Monte has more than one trouble. His father lies dangerously near death in Philadelphia. The boy is naturally much affected by his parent's illness, and is not playing his best game.

WILL ATTACH THEIR RECEIPTS. Von der Ahe Says Every Club in the League Owes Him Money.

If Col. Chris Von der Ahe carries out his ntentions of attaching the receipts of every intentions of attaching the receipts of every National League club that comes to St. Louis, there won't be much rejoicing among the other il magnates.

And attach the receipts is just what Mr. Von der Ahe says he will do.

He claims that every club in the League owes him money on account of that famous old Cincinnati team, "Kelly's Killers," who played at Pendleton in 1891.

Hitherto the St. Louis magnate has contented himself with attaching the receipts of the Washington Club. He has now about \$4,000 of the Wagners' money tied up. But that was too slow for him, and now he proposed to do them all up.

New York will be the first victim this afternoon.

CUBA'S CAPITAL.

The Summer Will Be a Season of Suffering at Havana

HUNGER, POVERTY, DISEASE,

Antonie Maceo's Private Secretary the Only One to Accept Weyler's Offer of Amnesty.

NEW YORK, May 9.—A special to the Herald from Havana says: The condition of Havana is deplorable. Important business houses are closing every week; other are threatening to close, reducing the forces and cutting down the salaries of those who remain, while the prices of living, always high here, are constantly increasing. Sto-ries of want and misery are heard on every side, and everybody looks forward to the worst summer in the history of the island.

worst summer in the history of the island. Great cigar and cigarêtte houses—the main industry of the city—are holding down as much as possible, as there is not enough feed tobacco in sight to carry them through the summer.

Antonio Maceo's destructive campaign in the Vuelta will immeditely compel many factories to suspend, and deprive thousands of families of their means of subsistence. Small-pox has increased in Havana recently, and the authorities have been stirred to take action to isolate patients to some extent.

to take action to isolate patients to some extent.

It is learned that the health of the soldiers massed along the trocha is very bad. The turning up of ground across the island and the massing of men without sanitary arrangements result in innumerable cases of malarial fevers. The insurgents say this is hardly a beginning. When the rains come the ditches will become middy streams, the little forts along the edges will crumble and fall, and fever will decimate the ranks. Antonio Maceo's private secretary took advantage of Gen. Weyler's recend offer of amnesty to rebels in the Pinar Del Rio district. He surrendered and was immediately released. He is quoted as saying he became very sired in the mountains in camps where negroes preponderate. He says Maceo has a big army in good condition and well armed. When Maceo was asked jokingly if he intended to surrender so as to escape, he replied:

"Spaniards may some day get my dead body. I would neither surrender nor allow them to take me prisoner. I would kill myself first."

CLEVELAND MUST ACT. A Joint Resolution Will Soon Come Before Him.

WASHINGTON, May 9.—Senator Morga says in an interview:
"The joint resolution demanding recogn "The joint resolution demanding recognition of beiligerent rights for Cuba, which I have had referred to the Senate Committee on Foreign Relations, will be recommended favorably by that committee to the Senate at this session of Congress. It will pass the Senate by as good a majority as the concurrent resolution overwhelmingly adopted by both houses, and which lies pigeon-holed within the Executive Mansion. When this joint resolution goes to the White House it will not be regarded with the same complacent indifference. Congress has already, by its previous action, recognized a state of war in Cuba. The President has, by his inaction, refused to so regard, the situation. The feint resolution will become a law or receive the veto. The President's discretion must be exercised."

Expedition From Jamaica. Expedition From Jamaica.

NEW YORK, May 3.—A special to the Herald from Kingston, Jamaica, says:
Cuban residents have received advices announcing the safe arrival in Cuba of an expedition in ald of the insurgents, which recently left this island. The vessel conveying the expedition was chased by a Spanish cruiser, and was compelled to land her men and cargo in the vicinity of an encampment of Government troops, which however, was avoided by a flank movement.

WHITE IN HIS WAR PAINT.

The Senator Makes Charges Concerning the Santa Monica Apprepriation.

WASHINGTON, D. C., May 8.—In the Senate yesterday afternoon Senator White of California commented on the "extraordinary and peculiar" conditions by which the Senators and local representatives from California were not consulted as to the proposed Santa Monica appropriation. It indicased that "some extraordinary influence" had been brought to bear. The Senator commented on the "persistency" of the Southerp Pacific road, and declared this accounted for the extraordinary action.

It indicaded that "some extraordinary influence" had been brought to bear. The Senator commented on the "persistency" of the Southerp Pacific road, and declared this accounted for the extraordinary action.

Mr. White spoke of the surprise with which he learned that the paragraph for the Santa Monica appropriation had actually been printed for incorporation in the river and harbor bill, although the understanding had been reached that there should be no appropriation beyond that for the inner harbor at San Pedro.

"So that my State stands on higher ground than other States occupy," said Mr. White. "Some States are forced to solicit appropriations, but in my case they come unsolicited and unwarranted."

The Senator commented severely on a communication from "the third House," written by Civil Engineer Corthell, "an employe of the Southern Pacific Railroad." The Senator repudisted the claim by Corthell that he made an "official investigation" at the request of Senators and members. It was Mr. Huntington whom he served, and yet, Mr. White said; the committee had set aside the recommendations of army boards, and had accepted the recommendations of paid employes.

Mr. Gray (Dem.) of Delaware asked if there was not some official recommendation."

Mr. George (Dem.) of Mississippi added further questions.

"Do I understand," he asked, "that two boards of army engineers, sworn to the performance of their duty, have reported against the appropriation which the committee recommends to the Senater."

"Ido." "And do I understand that the two California Senators and the Representative from the district oppose the appropriation which the committee from the thereto the propose the appropriation which the committee from the district oppose the appropriation which the commendation which the commendation which the commendation which

which the committee recommends:

"Yes."

"Is it a fact that no evidence exists in favor of the project except that of the two men in the employ of the Southern Pacific Railroad?"

Mr. White answered that others had given their opinion and views, but there were no other professional engineering reports.

Mr. Bate (Dem.) of Tennessee added that he understood that the commercial bodies of the locality were opposed to the Santa Monica site.

TABBLES

For more than ten years Mrs. H. A. Kransteuber, living at 72 West Fifty-fourth street, Bayonne, N. J., had suffered severely from dyspepsia, and during that time she consulted many physicians. First it was the family doctor in New York, where she resided at the time, and later she had treatment at the obtained no permanent relief. For over a month she had visited her family physician in Bayonne twice in every week, and as a last resort an appointment had been made when she was to submit to the new process of having the stomach washed out by the new siphon arrangement, which is found a mode of treatment more beneficial in its effects than enjoyable in the process. About this time, however, Mrs. Kransteuber had a conversation with a friend who was well acquainted with the merits of Ripans Tabules, and who presented her with a box for trial. "Well," says Mrs. Kransteuber, "I did try them, and could feel that they did me good so I bought more, and in my house nowadays you will always find a box of Ripans Tabules in a convenient place ready for use.

I find them easier to take than powders or liquids, or even than swallowing hot water in the morning, and my condition is so much improved that of late I have had no occasion to resort to them at all. Before I found the Tabules my bill for attenda and medicine was rarely less than three dollars a week. The Tabules have not only improved my condition, but have been efficacious in the case of friends to whom I have recommended them.

WHEAT.

There was a regular bull explosion at the opening, and before it was over the market was up ide. This advance was in the face, too, of good rains in the Southwest, as high conditioned Michigan State report and a better Ohio report than given the other day, and also of i/d lower Liverpool cable and larger Argentine exports than last week. The weather in the Northwest, however, was still unfavorable and a low area still hanging in North Dakota, numerous unfavorable winterwheat reports, speaking of disappointing prospects and bug damage, were received, and outside buying showed a marked increase, that by the country indicating they were backing their bad crop news in the right way. Shorts were alarmed at the demand that developed, and many of them covered, so that the buying was heavy. It was met by free selling, largely by one house supposed to be the principal July longs here, but offerings were rapidly absorbed. The week's clearances showed a large increase over the week before, but Northwestern receipts heavy—337 cars, against 171 one year ago.

Michigan's crop report for May says April was wry favorable for capps of all kinds. Not more than 2 to 3 per cent land will be plowed up. With few exceptions, no damage by insects. Condition winter wheat 92, against 80 last year. Ohlo's report makes condition 55 instead of 53 as stated. April 1 it was 57.

Mr. Langenberg of Booneville, Mo., says Boone county cannot raise over a half crop of wheat. The plant received a bad start and dry weather and bugs have damaged it some. Chinch bugs, he says, were never so thick as they are now, and they are rapidly sapping the plant's vitality.

A high official of Oklahoma writes that not over half a crop of wheat and perhaps only-a quarter crop will be raised, owing to

COFFEE MARKET.

MARKETS BY TELEGRAPH.

CHICAGO, May 9.—Chinch bug stories from Southern Illinois, Kansas, Oklaboma and the Southwest together with bearish news from the Dakotas and Ohio, had a buoyant effect on the Dakotas and Ohio, had a buoyant effect on the wheat market to-day. July started at 63%-68%-c, or '46 ½c over yesterday's close, on the strength of these reports. It soon went to 63½c, then to 64c and in the rush it touched 64½c, an advance of 1½c. Corn opened strong, in sympathy with wheat, at 20½c or ½c above yesterday's close. It soon reached 50c for July and went on up to 30½c. Oats for July opened at 19%c or ½c above yesterday's close, with the strength in wheat. It rose steadily to 20c. Hog products were weak, with little trading. July pork started at \$7.75, or 6c below yesterday, on large receipts at the yards. It soon eased off to \$7.67½. July lard started at 4.75c or 2½c below yesterday's close.

The demand for wheat became quiet urgent dur-

large receipts at the yards. It soon eased off to \$7.67%, July lard started at 4.75c or 2%c below yesterday. Bibs started at 4.15c or 2%c below yesterday's closs.

The demand for wheat became quiet urgent during the first hour's trading and from 63%c and 63%c at the opening. July wheat rose to 64%c. That was the culmination of the advance for the moment at least and a reaction to 64c followed upon its heels. The accession to the builish feeling indicated by the above was evidently the result of the digesting over night of yesterday's revelations concerning the damage to the previously very promising wheat prospects in Kansas. The conditions of the weather were improved for that State this morning, the Signal Service reporting .72 of an inch of rain at Wichita, and predicting showers for Kansas, Missouri and Okishoma between now and Monday morning. As the need of rain was urgent and the damage aiready done there not thought to be irremediable, those expected showers callmed the tone of the buyers and created rather a heavy feeling toward the end, July getting down to 63%c during its prevalence.

will be an election of officers, a declaration of principles for publication will be framed on the lines of last year's announcement, and the financial question, it is anticipated, may break into the deliberations as a disturbing factor.

Bome 250 members comprise the Supreme Council of the order. They represent the various State branches, the representation of each State being proportionate to the A. P. A. members therein.

Among the members who are now in the city, discussion is focused upon presidential matters. The action of the Executive Committee of the Advisory Board, which met in Washington and New York recently and published an attack upon McKinley, is to be a bone of contention. Thirteen members constitute the Executive Committee of this board. Seven of the committee of this board. Seven of the committee of this board. Seven of the committee of this board for the transaction of business, warm partisans, for and against McKinley, are numbered among the councillors, and those friendly to McKinley will enterly to force the Supreme Council to disavor-the Executive Committee's declaration.

The platform to be framed will have for

The platform to be framed will have for its chief planks the absolute separation of church and State, no government aid for church institutions, and more restrictive immigration laws.

A strong movement has been afoot in the western branch of the order to secure a declaration in favor of silver as one plank of the platform. How strong this will prove remains to be shown, but it will be fought by the Eastern delegates and by some others who believe the financial question to be without the domain of the organisation. Nevertheless, opponents of this plank fear that it will be adopted.

The national headquarters of the A. P. A. at present are at Chicago, but the removal to Washington is thought to be assured. The establishment of the headquarters here means that the order will take a more accuve part in politics than it has in the past. Its representatives here will be expected to watch legislation for the detection of measures opposed to the A. P. A. One requirement to be imposed upon the candidates for the positions of Supremo President and Secretary is that they will reside in this city. W. H. J. Traynor of Detroit, who has served as President for three terms, will not be a candidate for re-election. The leading candidates are: Col. Bowers of Iowa, the founder of the order; John J. H. D. Stevens of St. Louis, and Dr. J. W. Ford of Troy, N. Y. Supreme Secretary C. T. Beatty of Chicago will be a candidate for re-election.

Seabrooke admitted that he had locked his wife in her room at Dayton, O., but he said she was intoxicated at the time, and insisted on going to a ball. He had held out to her every inducement to reform, but without avail, and at last he determined upon a separation. Mrs. Seabrooke, the actor said, being at a loss for any other answer to his chiding, accused him of being unfaithful, and in April, when he came home late one night, she met him with the remark: "Go back to the woman you came from."

Seabrooke went to the Hotel Metropole and did not return to his wife after that.

Mrs. Seabrooke's counsel charged the actor with being intemperate, but this Seabrooke denied. He said he was not able to pay his wife alimony at this time.

Judge Pryor took the papers in the case and reserved decision.

Great Britain's Privy Council Renders Judgment in the Case.

LONDON, May 9 .- Judgment has bee rendered by the Privy Council in the Canadian prohibition case. Their lordships answered the question separately and gave the opinion that the Ontario Legislature had jurisdiction to enact Sec. 18, subject to the necessary qualification, and that its provisions are or will become inoperative in any district of the province which has already adopted or may adopt the second part of the Canada temperance act of 1886.

ond part of the Canada temperance act of 1886.

It is their lordships' opinion that the enactments of the imperial act of 1837 indicate that the exercise of legislative pawer by the Parliament of Canada is strictly confined to matters unquessionably of Canadian interest and importance. Any other construction, they say, is not only contrary to the intendment of the act, but would practically destroy the autonomy of the provinces, if it was once conceded that Parliament had the authority to make laws appplicable to the whole dominion in relation to matters which, in each province, are of local interest.

Their lordships are likewise of the opinion that Sec. 92 does not give the provisional legislatures the right to make laws for the abeliton of the liquor traffic. The Parliament of Canada has not the power to pass a prohibitory law for the province of Ontarlo, therefore it has no authority to repeal an act whereof the operation is limited to that province.

I believe the latter has doubled during the past two years. Favorable reports are being made about the gold country around Cook's Iniet and some large finds of the precious metal are rumored. The Yukon country maintains its high reputation for yields of gold in its placer mines. Last season fully \$1,200,000 in gold dust and nuggets was taken out. There is every prospect that the trouble early settlement

Union Association of insurance managers arrived in St. Louis Friday and registered at the Planters' Hotel. In the committee were the following

In the committee were the following Western managers:

I. S. Blackwelder, Niagara Insurance Co.; F. S. James, National Fire Insurance Co.; J. S. Belden, London and Lancashire Insurance Co.; W. J. Littlejohn, North British, and George W. Law, Royal of England.

The committee was accompanied by George L. Chase, President of the Hartford Fire Insurance Co., and A. Williams, general manager of the Connecticut Fire Insurance Co. These gentlemen came in an advisory capacity.

who were expelled last fall.

The Hirschbergs were expelled because of their insisting upon continuing in their employment as a sub-agent of Mrs. Getz.

Since their expulsion there has been a general demoralization of rates which has cost the companies about \$200,000 in premiums. The companies have felt this loss keenly and at a recent meeting of the Western Union, held in Cincinnati, a demand was made on the St. Louis Board that the expelled firm be reinstated regarcless of terms.

This command was considered by the local board and by a vote of 38 to 6 they declined to do as ordered.

It is understood that a curt letter was sent to the Western Union officials from St. Louis, stating that the St. Louis Board would accede to no orders formulated on hearsay and issued from Cincinnati. If, however, the Union would send a committee to St. Louis to make a personal investigation and would then order the reinstatement of the Hirschbergs, the order would be cheerfully obeyed.

Hence it was that the committee came to St. Louis.

Hence it was that the committee came to St. Louis.

The committee was in session Friday at the Planters'. It did not meet with the local board as a body, but sent for individual agents in alphabetical order.

Each agent was asked to give his version of the situation in St. Louis and to make any recommendations desired.

The session of the committee was continued Saturday.

Saturday afternoon F. D. Hirschberg appeared before the Committee on Invitation and related to the committee his grievances and stated his position and his purposes.

The proceedings of the committee have been guarded with jealous care, but it is not denied that the purpose is to settle the situation in St. Louis.

It is understood from an inside source that the committee will close its investigation Saturday, and that the members will return home Saturday night.

This decision will not be made public in St. Louis, but the result of the investigation will be reported to the Western Union direct.

If the decision has been to reinstate the Hirschbergs, and it is generally believed in insurance circler, that it will be, the further proceedings will be simple. The managers of the companies represented in St. Louis by board members, and who compose the Western Union, will write individually to their St. Louis agents, directing them to vote for the reinstatement of the Hirschbergs and Mrs. Getz. Such an order will be peremptory, and will be obeyed at once. "For," as c well-known agent puts it, "disobedience will mean the loss of an agency, and there are none of us so stubborn that we would risk that."

Kansas, arrived in St. Louis Saturday morning and will establish permanent headquarters here.

Meetings will be held Saturday night at 8 o'clock and Sunday at 3 o'clock and 8 o'clock p. m. in the Holy Ghost Church at Eighth and Walnut streets and the St. Louis organization effected.

Capt. Lockyer was formerly an officer of the Salvation Army at Cleveland. He was one of the first to cut adrift from the old organization and ally himself with the American body. He comes as the direct representative of Ballington Booth and will explain the objects and workings of the order at the meetings Saturday and Sunday. These meetings are all public.

Capt. Lockyer comes from Chicago, where he assisted in the organization of the American Volunteers.

He says the growth of the new movement

As soon as the St. Louis post is organized commander Booth will send officers to man it.

Captain Lockyer says Commander and Mrs. Ballington Booth have signified their intention of visiting St. Louis soon, and he thinks they will be here before convention week. The Volunteers, even before they are permanently organized, have been anticipating their coming and are already preparing to give them an enthusiastic reception.

There are already about 50 converts and members in St. Louis ready to enter upon the work of the new organization. Charles Shannon, who has been at the head of the movement here, says the members will increase very rapidly as, soon as a permanent organization is effected and regularly appointed officers are at the head.

Captain Lockyer says the American Volunteers will not antagonize the Salvation Army. It appreciates the splendid work the old organization has accomplished, and the only reason for the foraiding of the Volunteers is that it is thought the new movement, being an American institution, can do even a greater work in America than could be accomplished by an organization whose head is in a foreign land.

FORAKER'S ALLEGED TRICK

His Brother-in-Law Owns the Paint Shop From Which Anti-McKinley Literature Is Sent.

A morning paper printed a story to the direct result of the efforts of "Fire Alarm ter's fight for the Republican Presidential nomination. The Ohio Senator's alleged friendship for the Canton statesman is entirely discredited, and despite the fact he is to nominate him at the St. Louis Convention, it is asserted that he has been wielding his knife with great industry for several months.

the Walker Pairt Company, at 1006 Market street.

The owner is Commander-in Chief Walker of the G. A. R., who is also a brother-in-law of Foraker.

A. R. and Earl Thompson are agents for the joint company in this city. They are both prominent in A. P. A. circles, A. R. Thompson especially.

Up to the establishment by Judge Stevens, Chairman of the National Advisory Board of the A. P. A., of quarters at 612 Pine street, he did his work in this paint shop, and large quantities of anti-McKinley matter were undoubtedly sent from there, but whether or not Foraker had any consection with it's entirely another matter. It is claimed that there are proofs of Foraker's treachery to McKinley, but the merfact that men who are agents for his brother-in-law's paints in another city are working aginst McKinley is not expected to convict him so long as he fights in the open for the champion of protection.

And as for other proof J. B. Foraker has been a little too long in politics to be caught napping with any really incriminating evidence.

Judge Stevens and A. R. Thompson are both in Washington, whither they have gone to attend the National A. P. A. Convention to be held there May 12. They are evidently expecting trouble and have gone

Earl Thompson, A. R. Thompson's brother, declined to discuss the charges on the ground that he was in no way implicated, and that his brother must answer for himself on his return.

One well posted A. P. A. said that the story was true enough except as to the only new feature in it and that is Foraker's connection with the scheme. This gentleman states that the money to back Linton came from Platt and Morton, who hoped to thus break the tidal wave which was rolling the Ohloan on to the nomination.

E. W. Upmeyer, State Secretary of the A. P. A., declared that he knew nothing of the story and would not discuss it if he did. He, however, dropped a few remarks which boded ill for Judge Stevens and the rest of the A. P. A.'s who have from one motive or another had the temerity to attack McKinley.

"Wait until after the National Convention at Weshington," he said. "It's no time to discuss McKinley now. The investigation of his position is not yet over. We have affidavits of our own people, both for and against him, so we don't know where we stand.
